

Trusted Sites

A brief explanation: For the certificate installation process to run smoothly please add the AGIS websites to your Internet Explorer Trusted Sites. We will use the Trusted Sites security zone to make the necessary security changes to allow the AGIS certificate installation.

Go to Internet Explorer and select Tools, Internet Options, Security tab, Trusted Sites and click on Sites.

Add the following: <https://agisca.lanl.gov>, <https://agis.lanl.gov>, <http://agis.lanl.gov>. Type each address and click Add (to add <http://agis.lanl.gov> uncheck the Require server verification box).

Click close. Click OK to close the Internet Options window.
